Lifting the Moment

Benvenuto

Welcome to 2025 with Gemar!

This year, we invite you to explore a universe where balloons are no longer simple objects, but tools for personal expression. Where every balloon is a unique outfit to wear, and every creation a moment to live. With **Gemar Couture**, we break the boundaries between art, fashion, and design, transforming our balloons into the finest fabrics that tell stories of creativity and passion.

We are excited to present our **new palette of modelling balloons, G-links and Giant Balloons** which complete our range of the latest colours and, in the hands of our **master decorators**, have become stylish haute couture. Each new colour represents a shade of emotion and possibility, designed to enrich your art and creativity.

These stories of creativity and passion are supported through educational programs, free tutorials, special tools, and **Gemar Days**, offering every enthusiast the means to turn their imagination into art.

We hope our new products and projects spark your ideas, stimulate your creativity, and inspire you to look at balloons with new eyes, discovering the endless possibilities within each individual product.

Did you know that **we have a line of 100% FSC-certified balloons and natural products**? By choosing these balloons, you're not only celebrating with style but also protecting our precious forests for future generations. Learn more about our commitment to sustainability and the benefits of FSC-certified balloons on page 4 of our catalogue. But our dedication to sustainability doesn't stop here. **All our balloons are made from natural rubber, a renewable and natural material**, ensuring that you can celebrate responsibly without harming the environment, together, we can make every celebration a sustainable one with Gemar!

Welcome to the fabulous world of Gemar, where every balloon tells a story, and you are the protagonist.

Welcome to the family.

¡Bienvenidos al 2025 con Gemar!

Este año les invitamos a explorar un universo donde los globos ya no son simples objetos, sino instrumentos de expresión personal. Donde cada globo es una prenda para vestir y cada creación un momento para vivir. Con **Gemar Couture**, rompemos las fronteras entre arte, moda y diseño, transformando nuestros globos en tejidos preciosos que cuentan historias de creatividad y pasión.

Estamos entusiasmados de presentarles la nueva paleta **de globos modelables, G-link y Giant Balloons** que completan nuestra gama de colores de última generación y que, en manos de nuestros maestros decoradores, se han convertido en elegantes prendas de alta costura. Cada nuevo color representa un matiz de emoción y posibilidades, pensado para enriquecer su arte y creatividad.

Estas historias de creatividad y pasión son apoyadas por programas educativos, tutoriales gratuitos, herramientas especiales y **Gemar Days**, que ofrecen a cada apasionado los medios para transformar su imaginación en arte.

Esperamos que nuestros nuevos productos y proyectos enciendan sus ideas, estimulen su creatividad e inspiren a mirar los globos con nuevos ojos, descubriendo las infinitas posibilidades de cada producto.

¿Sabían que tenemos **una línea de globos y productos certificados FSC al 100%**? Al elegir estos globos, no solo celebrarán con estilo, sino que también protegerán nuestros preciosos bosques para las generaciones futuras. Para saber más sobre nuestro compromiso con la sostenibilidad y las ventajas de los globos certificados FSC, consulten la página 4 de nuestro catálogo. Pero nuestra dedicación a la sostenibilidad no se detiene aquí. **Todos nuestros globos están hechos de goma natural, un material renovable y natural**, que garantiza la posibilidad de celebrar de manera responsable sin dañar el medio ambiente; juntos, podemos hacer que cada fiesta sea sostenible con Gemar!

Bienvenidos al fabuloso mundo de Gemar, donde cada globo cuenta una historia y ustedes son los protagonistas.

Bienvenidos a la familia.

Gemar
Lifting the Moment

We make more than balloons we make moments

Tucked among the hills in the heart of Italy you will find Casalvieri, a small town that has been home to the Rocca family for over four generations and the site of Italian balloon innovation for just as long. Gemar is very much a family business, and our mission is to inspire and bring balloon joy to every occasion.

HOW WE DO WHAT WE DO? OUR GUIDING PRINCIPLES:

RESPONSIBILITY

Gemar is founded on strong ethical values passed on by generations of the Rocca family it's commitment to social responsibility. We firmly believe that we can grow in an environmentally friendly, sustainable and ethical way. At Gemar we really do feel that we are a global community and extended family, from our most distant customer to the workforce in Casalvieri.

TRADITION

A passion for balloons has been passed down through the Rocca family for generations. Now supported by a dedicated team, we work to build on that heritage for future generations.

INNOVATION

Innovation is at the core of our business. From product development to business practices, we are always looking for ways to stand out from the crowd.

CREATIVITY

It's important to us to share the joy of balloon art worldwide and we are always looking for ways to inspire and support balloon artists, from the newest novice to our balloon art masters.

EXPERIENCE AND KNOW HOW

When choosing Gemar, our customers can be sure that our products are designed to meet the highest standard of quality and expertly made in Italy with pride and passion, in fair working conditions and without ethical compromises.

Incastonata tra le colline nel cuore dell'Italia, la cittadina di Casalvieri è la culla della famiglia Rocca da oltre quattro generazioni e la casa italiana dell'innovazione nel settore dei palloncini da altrettanti anni. Gemar è un'azienda familiare e la nostra mission è ispirare e portare la gioia con i palloncini in ogni occasione.

COME RIUSCIAMO A FARE QUELLO CHE FACCIAMO?:

CON RESPONSABILITÀ

Gemar si fonda su forti valori etici tramandati di generazione in generazione nella famiglia Rocca e sull'impegno verso una responsabilità sociale. Siamo fermamente convinti che è possibile crescere in maniera etica, sostenibile ed ecologica. Noi di Gemar siamo una comunità globale e una famiglia allargata che va dai clienti più lontani alla forza lavoro di Casalvieri.

CON LA TRADIZIONE

La passione per i palloncini attraversa la famiglia Rocca da generazioni. Con l'aiuto di un team dedicato, lavoriamo per capitalizzare il nostro patrimonio per le future generazioni.

CON L'INNOVAZIONE

Il segreto è non accontentarsi mai e cercare sempre nuovi modi per migliorare i prodotti e distinguersi dagli altri.

CON LA CREATIVITÀ

Per noi è importante condividere la gioia della balloon art in tutto il mondo e siamo sempre alla ricerca di nuove modalità per ispirare e supportare i balloon artist, dai principianti ai maestri della balloon art.

CON L'ESPERIENZA

Quando scelgono Gemar, i nostri clienti possono essere certi che i nostri prodotti sono progettati in modo da rispettare i più alti standard di qualità e che sono prodotti in Italia con orgoglio e passione, in condizioni di lavoro eque e senza compromessi etici.

Acurrucado en las colinas del centro de Italia, Casalvieri es un pequeño pueblo, hogar de la familia Rocca desde hace más de cuatro generaciones y cuna de la innovación italiana de los globos. Gemar es una empresa familiar cuya misión es inspirar y llevar la alegría de los globos a todas las ocasiones.

CÓMO HACEMOS LO QUE HACEMOS? NUESTROS PRINCIPIOS GUÍA:

RESPONSABILIDAD

Gemar se funda en fuertes valores éticos que la familia Rocca transmite de generación en generación junto a su compromiso con la responsabilidad social. Creemos firmemente que podemos crecer de manera ecológica, sustentable y ética. En Gemar creemos realmente que somos una comunidad global, una familia ampliada, que abarca desde nuestros clientes más lejanos hasta nuestra fuerza de trabajo en Casalvieri.

TRADICIÓN

La pasión por los globos siempre se ha transmitido de generación en generación dentro de la familia Rocca. Respaldados por un equipo dedicado, trabajamos para construir sobre esa herencia, por las generaciones futuras.

INNOVACIÓN

La innovación constituye el centro de nuestra actividad. Desde el desarrollo de producto hasta la práctica de los negocios, siempre buscamos maneras de destacarnos de la multitud.

CREATIVIDAD

Es importante para nosotros compartir la alegría del arte de los globos en todo el mundo, y buscamos maneras de inspirar y apoyar a los amantes de los globos, desde los aficionados hasta los grandes maestros.

EXPERIENCIA Y TÉCNICA

Cuando eligen Gemar, nuestros clientes saben que nuestros productos están diseñados para responder a los más altos estándares de calidad y son fabricados en Italia con orgullo y con pasión, en condiciones de trabajo justas y éticas.

Casalvieri est un petit village au milieu des collines du cœur de l'Italie. Quatre générations de Rocca s'y sont succédé. C'est là que se trouve le moteur de l'innovation du ballon italien. Gemar est une affaire de famille. Notre mission est d'inspirer et de transmettre la joie par les ballons à chaque occasion.

NOTRE MÉTHODE ? NOS LIGNES DE CONDUITE:

RESPONSABILITÉ

Gemar repose sur de grandes valeurs éthiques transmises d'une génération à l'autre au sein de la famille Rocca : la responsabilité sociale. Nous sommes convaincus de pouvoir évoluer dans le respect de l'environnement, de la durabilité et de l'éthique. Chez Gemar, nous avons le sentiment d'être une communauté mondiale et une grande famille, qu'il s'agisse de nos clients les plus éloignés ou de notre personnel de Casalvieri.

TRADITION

La passion de la famille Rocca pour le ballon se transmet de génération en génération. Grâce au soutien d'une équipe de professionnels, nous mettons cet héritage à profit pour l'avenir.

INNOVATION

L'innovation est au cœur de notre activité. De la conception des produits aux pratiques commerciales, nous cherchons toujours de nouveaux moyens de nous démarquer.

CRÉATIVITÉ

Nous voulons partager la joie de l'art du ballon partout dans le monde et cherchons en permanence de nouveaux moyens d'inspirer et soutenir les sculpteurs, qu'ils soient novices ou experts.

EXPÉRIENCE ET SAVOIR-FAIRE

En choisissant Gemar, nos clients ont la garantie que nos produits sont fabriqués en Italie selon des critères de qualité rigoureux, dans un environnement équitable et sans compromis en matière d'éthique.

OUR COMMITMENT

Gemar is committed to the UN GLOBAL COMPACT corporate responsibility initiative and its principles in the areas of human rights, labour, the environment and anti-corruption and supports the Sustainable Developments Goals.

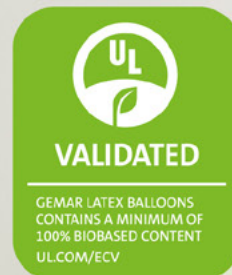

15 LIFE ON LAND

NATURAL PRODUCTS

All our balloons are made from "caoutchouc", a natural and renewable material. Natural latex is combined with pigments to give a beautifully colourful product that is **100% bio-based**. We are very proud of the fact that we have always used caoutchouc natural rubber to manufacture Gemar balloons. Caoutchouc, a milky sap harvested from the Hevea Brasiliensis rubber tree in the same way that maple syrup is tapped from maple trees, is a natural and renewable material preserved throughout the manufacturing process.

100% FSC™-CERTIFIED

We are proud to announce the new range of **100% FSC®-certified Gemar balloons** (FSC™ C155424). The materials used in this range come entirely from FSC®-certified forests. FSC™ labelling tells customers that the materials used originate from sustainable and legal sources, that **zero deforestation** has occurred and biodiversity is maintained.

RENEWABLE AND RECYCLABLE

Our balloon manufacturing process uses 90% of renewable materials. All of our packaging is reusable or recyclable and/or FSC®-certified. Unlike standard balloon packaging, which is usually thrown away as soon as it's opened, our zip bags can be kept, reused again and again and refilled.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

13 CLIMATE ACTION

CARBON FOOTPRINT

Our balloons are made with caoutchouc which is a natural rubber latex spilled from the Hevea Brasiliensis trees (the rubber tree). Hevea Brasiliensis is considered a broad leaf tree and is one of the most effective tree species to act as a carbon sink.

CLEAN ENERGY

We are committed to increase the use of renewable energy in our manufacturing process. In 2023 we have installed in our factory solar panels that provide clean energy, creates no carbon emissions and avoids the environmental damage associated with fossil fuels.

7 AFFORDABLE AND CLEAN ENERGY

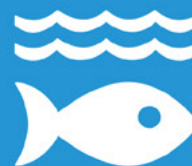

DON'T LET GO

Everything that goes up must eventually come down, even though our balloons are bio-based, litter is still unsightly and poses a very real danger to wildlife, that's why we don't support balloon releases, instead we encourage our customers to use balloon weights and enjoy their balloons safely.

14 LIFE BELOW WATER

8 DECENT WORK AND ECONOMIC GROWTH

GEMAR FAMILY

Behind our success are a team of highly skilled and dedicated individuals – who are our greatest asset. It is important to us that everyone is treated well. In fact the core values of integrity, transparency, responsibility and loyalty underpin everything we do, and that includes our business relationships. For those working on site in Casalvieri, this means that all are able to work full time in fair and safe conditions.

3 GOOD HEALTH AND WELL-BEING

SAFETY IS PARAMOUNT

When choosing Gemar, our customers can be sure that our products are designed to meet the highest standard of quality and expertly made in Italy with pride and passion. All processes, from design to manufacturing, are carried out in our Gemar facilities in Casalvieri in Italy, in compliance with the most stringent European standards and regulations for toy safety. Gemar quality is recognised across the globe, certified and tested by accredited bodies worldwide such as TUV, SGS, Intertek, IISG-UL.

COMMUNITY

Gemar's influence reaches far beyond our factory walls. In the rubber plantations we seek to help communities grow by always prioritising and hiring local residents. Here in Italy, we sponsor many cultural, sporting and entertainment events.

MADE IN ITALY

All of our products are made entirely in our factories here in the Italian hills, nothing is ever outsourced or manufactured overseas. Manufacturing every balloon ourselves means that you can be sure that you will always get our famous top quality products.

11 SUSTAINABLE CITIES AND COMMUNITIES

4 QUALITY EDUCATION

EDUCATION

Not only do we provide financial support to local schools and events, we also take a hands-on approach. Our balloon experts love to share fun and practical classes, both at events and online. Through our unique Balloonista program we share educational video tutorials with people across the world, inspiring them to create and discover the joy and passion for balloons.

ETHICS

We are an active member of Assogiocattoli and the European Balloon & Party Council (EBPC), organisations dedicated to improving industry standards and promoting best practices and responsible use of balloons through Party Safe. Gemar is also a member of SEDEX, a not-for-profit organisation dedicated to improving the ethics of global supply chains as well as European standardization bodies CEN-CENELEC and UNI. In 2023 Gemar has partnered with Freedom to bring positive change to the environment and to people's lives. We have planted 200 trees in 6 countries around the world benefitting not only the environment, but also people living in the region. Today they're just seedlings, but tomorrow our trees will provide food, shelter and income opportunities, as well as helping to remove CO₂ from the atmosphere.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

TRADITION AND INNOVATION

We look back on four generations of balloon manufacturers with an unshakable passion and pride, but we are not stuck in the past. With a long tradition of innovation, we aim to lead the way into the future in many ways, both big and small. We have a Research & Development team dedicated to promoting innovation across the manufacturing process through digitalization, energy reduction and technical enhancements.

GLOBAL ACTION

Gemar is the first company in the balloon and party industry to adopt sustainability reporting certified according to GRI guidelines and has been committed to the UN Global Compact corporate responsibility initiative since 2019.

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

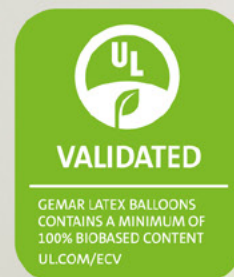

NUESTRO COMPROMISO

Gemar está comprometida en la iniciativa de responsabilidad empresarial GLOBAL COMPACT de Naciones Unidas y sus principios en el ámbito de los derechos humanos, el trabajo, el medio ambiente y la lucha contra la corrupción, y apoya los Objetivos de Desarrollo Sostenible.

PRODUCTOS NATURALES

Todos nuestros globos se fabrican con **caucho**, un material natural y renovable. El látex natural se combina con pigmentos para dar origen a un hermoso producto colorido y **100% ecológico**. Estamos muy orgullosos de utilizar desde siempre caucho natural para fabricar los globos Gemar. El caucho es una savia de aspecto similar al de la leche que se obtiene del árbol de caucho Hevea Brasiliensis, de la misma manera en que el jarabe de arce se obtiene de los arces, y es un producto natural y renovable que se preserva durante todo el proceso de fabricación.

100% CERTIFICADO-FSC®

Nos enorgullece poder anunciar la nueva gama de **globos Gemar 100% certificados FSC®** (FSC™ C155424). Los materiales empleados en esta gama provienen en su totalidad de bosques certificados FSC®. La etiqueta FSC™ indica que los materiales utilizados se originan en fuentes legítimas y sostenibles, sin **ninguna deforestación** y manteniendo la **biodiversidad**.

RENOVABLE Y RECICLABLE

Nuestro proceso de fabricación de globos utiliza un 90% de **materiales reciclables**. Todos nuestros envases son **reutilizables** o reciclables y/o están certificados FSC®. A diferencia de los embalajes estándar, que suelen desecharse inmediatamente después de la apertura, nuestras bolsas con cremallera se pueden conservar, reutilizar una y otra vez, y volver a llenar.

HUELLA DE CARBONO

Nuestros globos son de caucho, es decir, de látex de goma natural proveniente de árboles Hevea Brasiliensis (el árbol del caucho). La especie Hevea Brasiliensis es un árbol de hoja ancha y es una de las especies más efectivas como sumidero de carbono.

ENERGÍA LIMPIA

Nos empeñamos en incrementar el uso de energía renovable en nuestro proceso de fabricación. En 2023 instalamos en nuestra fábrica paneles solares para el suministro de energía limpia, con el fin de evitar las emisiones de carbono y el daño ambiental asociado al uso de combustibles fósiles.

NO LO SUELTES

Todo aquello que asciende, tarde o temprano, desciende, y por más que nuestros globos sean biológicos, la basura no es agradable de ver y constituye un peligro muy real para la vida silvestre, por eso no estamos a favor de soltar los globos sino que invitamos a nuestros clientes a utilizar pesos para impedir que se vuelen y disfrutar de los globos de manera segura.

LA FAMILIA GEMAR

Detrás de nuestro éxito hay un equipo de personas capacitadas y dedicadas que son nuestro activo más importante. Para nosotros es importante que todas las personas sean tratadas correctamente. De hecho, los valores fundamentales de integridad, transparencia, responsabilidad y lealtad subyacen a todo lo que hacemos, y eso incluye nuestras relaciones comerciales. Todo el personal de la planta de Casalvieri trabaja a tiempo completo, en condiciones laborales justas y seguras.

3 GOOD HEALTH AND WELL-BEING

LA SEGURIDAD ES FUNDAMENTAL

Cuando eligen Gemar, nuestros clientes saben que nuestros productos están diseñados para responder a los más altos estándares de calidad y son fabricados en Italia con orgullo y con pasión. Todos los procesos, del diseño a la fabricación, se llevan a cabo en las instalaciones de Gemar situadas en Casalvieri, Italia, de conformidad con los más estrictos reglamentos y estándares europeos en materia de **seguridad de los juguetes**. La calidad Gemar es reconocida en todo el mundo, **certificada y probada** por organismos mundialmente acreditados como TÜV, SGS, Intertek, IISG-UL.

COMUNIDAD

La influencia de Gemar va mucho más allá de las paredes de la fábrica. En las plantaciones de caucho, tratamos de ayudar a crecer a las comunidades dando prioridad y contratando a los residentes locales. Aquí en Italia patrocinamos muchos eventos culturales, deportivos y de entretenimiento.

FABRICADOS EN ITALIA

Todos nuestros productos se fabrican íntegramente en nuestras plantas en las colinas italianas. No subcontratamos ni hacemos fabricar en el extranjero. Como todos nuestros globos son fabricados por nosotros mismos, puedes tener la certeza de que de nosotros obtendrás sólo productos de la más alta calidad.

11 SUSTAINABLE CITIES AND COMMUNITIES

4 QUALITY EDUCATION

EDUCACIÓN

No sólo brindamos apoyo financiero a eventos y escuelas locales sino que también actuamos de manera directa. A nuestros expertos en globos les encanta compartir clases prácticas y divertidas, tanto en eventos como online. A través de nuestro inigualable programa Balloonista compartimos videos tutoriales con personas de todo el mundo, inspirándolas a crear y descubrir la alegría y la pasión por los globos.

ÉTICA

Somos un miembro activo de Assogiocattoli y del European Balloon & Party Council (EBPC), organizaciones dedicadas a la mejora de los estándares de la industria y a la promoción de las mejores prácticas y del uso responsable de los globos a través de Party Safe. Gemar también es miembro de SEDEX, organización sin fines de lucro dedicada a la mejora de la ética de las cadenas de suministro globales, y de los organismos de estandarización europeos CEN-CENELEC y UNI. En 2023 Gemar se asoció a Treedom para aportar un cambio positivo al ambiente y a la vida de la gente. Hemos plantado 200 árboles en 6 países, beneficiando no sólo al ambiente sino también a la gente de la zona. Hoy son sólo plántulas, pero el día de mañana nuestros árboles brindarán alimento, protección y oportunidades de ingresos, además de ayudar a eliminar el CO₂ de la atmósfera.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

TRADICIÓN E INNOVACIÓN

Mantenemos la inquebrantable pasión y el orgullo de cuatro generaciones dedicadas a la fabricación de globos, pero no nos quedamos en el pasado. Con una larga tradición de innovación, apuntamos a seguir liderando el camino al futuro de muchas maneras, grandes y pequeñas. Tenemos un equipo de Investigación y Desarrollo que se dedica a promover la innovación en todo el proceso de fabricación a través de la digitalización, la reducción del consumo de energía y las mejoras técnicas.

ACCIÓN GLOBAL (ODS 16 PAZ, JUSTICIA E INSTITUCIONES SÓLIDAS)

Gemar es la primera empresa del sector de los globos y las fiestas en adoptar los informes de sostenibilidad certificados según las pautas GRI y está comprometida desde 2019 en la iniciativa de responsabilidad empresarial Global Compact de Naciones Unidas.

16 PEACE, JUSTICE AND STRONG INSTITUTIONS

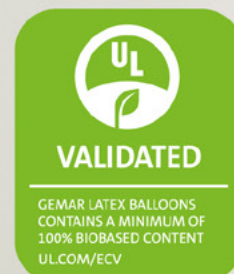

NOS ENGAGEMENTS

Gemar s'est engagée à respecter la responsabilité sociale et les principes du Pacte mondial des Nations Unies en ce qui concerne les droits de l'homme, l'environnement, le droit du travail et la lutte contre la corruption. L'entreprise soutient les objectifs en matière de développement durable.

PRODUITS NATURELS

Tous nos ballons sont fabriqués à base de «caoutchouc», un latex naturel et renouvelable. Ce produit est associé à des pigments pour obtenir un résultat coloré **100 % bio**. Nous sommes fiers d'avoir toujours utilisé un caoutchouc naturel pour fabriquer nos ballons Gemar. Le caoutchouc est une pâte laiteuse qui nous vient de l'Hevea Brasiliensis. Il est récolté de la même manière que le sirop d'érable. C'est un matériau naturel et renouvelable, préservé tout au long du processus de fabrication.

100 % CERTIFIÉS FSC®

Nous sommes fiers d'annoncer l'arrivée d'une nouvelle gamme de **ballons Gemar 100 % certifiés FSC®** (FSC™ C155424). Les matériaux employés dans cette gamme proviennent intégralement de forêts certifiées FSC®. Le label FSC™ signale aux clients que les matériaux employés proviennent de sources durables et légales, qu'**aucune déforestation** n'a contribué à leur production et que la **biodiversité** a été respectée.

RENOUVELABLE ET RECYCLABLE

Notre processus de fabrication utilise 90% de **matériaux renouvelables**. Tous nos emballages sont **réutilisables**, recyclables et/ou certifiés FSC®. A la différence des emballages classiques pour les ballons, qui sont d'ordinaire mis à la poubelle une fois ouverts, nos sachets refermables peuvent être conservés et réutilisés à l'envi.

EMPREINTE CARBONE

Nos ballons sont réalisés à partir de caoutchouc. Il s'agit d'un latex naturel obtenu des arbres Hevea Brasiliensis (aussi appelé caoutchouc). Hevea Brasiliensis est un arbre doté de larges feuilles. Il s'agit de l'un des plus efficaces en termes d'absorption du carbone.

ÉNERGIE PROPRE

Nous nous engageons à augmenter la part d'énergies renouvelables employées dans notre processus de fabrication. En 2023, nous avons installé au sein de notre usine des panneaux solaires qui fournissent de l'énergie propre sans émission de carbone, tout en évitant les dégâts environnementaux associés aux énergies fossiles.

NE LES LAISSEZ PAS S'ENVOLER

Tout ce qui monte finit par descendre. Même si nos ballons sont bio, les déchets ne sont pas plus esthétiques. De plus, ils représentent un véritable danger pour les animaux. C'est pourquoi nous nous opposons aux lâchers de ballons, et encourageons nos clients à utiliser des poids pour ballons, afin de leur permettre de profiter de leurs ballons en toute sécurité.

LA FAMILLE GEMAR

C'est notre équipe de travailleurs qualifiés et passionnés qui fait notre succès. Ils sont aussi notre meilleur atout. Pour nous, il est essentiel que chacun soit traité comme il se doit. Nos valeurs, à savoir l'intégrité, la transparence, la responsabilité et la loyauté, marquent chacune de nos démarches, et cela comprend aussi nos rapports professionnels. Les employés de Casalvieri disposent d'un contrat permanent. Ils travaillent à temps plein en toute sécurité et sont traités avec équité.

3 GOOD HEALTH AND WELL-BEING

LA SÉCURITÉ AVANT TOUT

En choisissant Gemar, nos clients ont la garantie de produits fabriqués en Italie avec fierté et passion, selon des critères de qualité rigoureux. Tous les processus, de la conception à la fabrication, sont réalisés dans nos usines Gemar à Casalvieri en Italie, conformément aux normes européennes les plus strictes en matière de **sécurité des jouets**. La qualité Gemar est reconnue partout dans le monde. Elle est **certifiée et testée** par des organismes agréés tels que TUV, SGS, Intertek et IISG-UL.

COMMUNAUTÉ

L'influence de Gemar s'étend au-delà des murs de notre usine. Dans les plantations de caoutchouc, nous essayons d'aider les communautés à se développer en privilégiant et en employant les travailleurs locaux. En Italie, nous parrainons de nombreux événements culturels, sportifs et de loisirs.

FABRIQUÉS EN ITALIE

Tous nos produits sont intégralement fabriqués dans nos usines installées dans les collines italiennes. Rien n'est fabriqué ni externalisé à l'étranger. En produisant nous-mêmes nos ballons, nous vous garantissons des produits de qualité en toutes circonstances.

11 SUSTAINABLE CITIES AND COMMUNITIES

4 QUALITY EDUCATION

FORMATION

Nous apportons un soutien financier et pratique aux écoles et aux événements locaux. Nos experts aiment partager leurs compétences pratiques en ligne ou lors d'événements. Grâce à notre programme Balloonista unique, nous proposons des vidéos pédagogiques mettant à l'honneur des personnalités du monde entier. Nous aidons ainsi les gens à créer et découvrir la joie et la passion des ballons.

ÉTHIQUE

Nous sommes membres d'Assogiocattoli et de l'European Balloon & Party Council (EBPC). Ces organismes visent à renforcer les normes en vigueur dans notre secteur et à promouvoir les meilleures pratiques ainsi qu'un usage responsable des ballons par le biais de Party Safe. Gemar fait aussi partie de SEDEX, une association sans but lucratif visant à améliorer l'éthique des chaînes d'approvisionnement mondiales, ainsi que des organismes de normalisation européens comme CEN-CENELEC et UNI. En 2023, Gemar s'est associé à Freedom pour initier un changement positif dans la vie des personnes et pour l'environnement. Nous avons planté 200 arbres dans 6 pays à travers le monde pour le bien de l'environnement, mais aussi pour le bien des personnes vivant dans ces régions. Ce ne sont aujourd'hui que de jeunes plants, mais nos arbres assureront à l'avenir de la nourriture, un abri et des opportunités de revenus, en plus de contribuer à capturer le CO₂ présent dans l'atmosphère.

TRADITION ET INNOVATION

Même si nous sommes davantage tournés vers l'avenir, nous sommes fiers de compter quatre générations de fabricants de ballons passionnés. Forts d'une longue tradition d'innovation, nous voulons rester des précurseurs dans notre domaine, à petite comme à grande échelle. Nous disposons d'une équipe de Recherche et développement dédiée à la promotion de l'innovation au sein du processus de fabrication à travers la digitalisation, la réduction d'énergie et les améliorations techniques.

ACTIONS MONDIALES (ODD 16 PAIX, JUSTICE ET INSTITUTIONS EFFICACES)

Gemar est la première entreprise active dans le secteur du ballon et des événements à adopter un système de rapport de durabilité certifié selon les lignes directrices du GRI. Depuis 2019, Gemar s'engage à respecter la responsabilité sociale et les principes du Pacte mondial des Nations Unies.

15 LIFE ON LAND

PRODOTTI NATURALI

Tutti i nostri palloncini sono fatti di **caucciù**, un materiale naturale e rinnovabile. Il lattice naturale è combinato con pigmenti per ottenere prodotti dai colori meravigliosi al **100% a base biologica**. Siamo orgogliosi di aver sempre utilizzato caucciù o gomma naturale per fabbricare i palloncini Gemar. Il caucciù, una linfa lattiginosa che si raccoglie dall'albero della gomma *Hevea Brasiliensis* proprio come lo sciroppo d'acero, è un materiale naturale e rinnovabile che viene preservato durante tutto il processo di fabbricazione.

CERTIFICAZIONE-FSC® AL 100%

Siamo orgogliosi di annunciare la nuova gamma di **palloncini Gemar certificati FSC® al 100%** (FSC™ C155424). I materiali utilizzati per questa linea di prodotti provengono interamente da foreste certificate FSC®. L'etichetta FSC™ garantisce ai clienti che i materiali utilizzati provengono da fonti sostenibili e legali e che sono stati ottenuti a **deforestazione zero** proteggendo la **biodiversità**.

RINNOVABILE E RICICLABILE

Il nostro processo di produzione dei palloncini utilizza **materiali rinnovabili** al 90%. Tutti i nostri imballi sono **riutilizzabili**, riciclabili o certificati FSC®. A differenza delle confezioni standard, che di solito vengono buttate via non appena vengono aperte, le nostre buste con zip possono essere conservate, riutilizzate e riempite più volte.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

13 CLIMATE ACTION

IMPRONTA DI CARBONIO

I nostri palloncini sono fatti con il caucciù, un lattice di gomma naturale spillato dagli alberi *Hevea Brasiliensis* (l'albero della gomma). L'*Hevea Brasiliensis* è considerato un albero a foglia larga ed è una delle specie arboree più efficaci per agire come deposito di carbonio.

ENERGIA PULITA

Lavoriamo per aumentare l'uso di energia rinnovabile nel nostro processo produttivo. Nel 2023 abbiamo installato nel nostro stabilimento un impianto di pannelli solari per fornire energia pulita, ridurre le emissioni di carbonio ed evitare i danni ambientali associati ai combustibili fossili.

7 AFFORDABLE AND CLEAN ENERGY

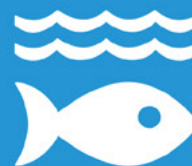

NON FARLO VOLAR VIA

Tutto ciò che sale prima o poi scende e, anche se i nostri palloncini sono a base biologica, i rifiuti sono comunque antiestetici e rappresentano un pericolo reale per la fauna selvatica; ecco perché invitiamo i nostri clienti a non far volare i palloncini in cielo e ad usare i pesi per divertirsi in tutta sicurezza.

8 DECENT WORK AND ECONOMIC GROWTH

LA FAMIGLIA GEMAR

Il nostro successo si basa su un team di persone appassionate altamente qualificate che costituiscono il nostro patrimonio più grande. Per noi è importante che tutti siano trattati bene. Ed è proprio per questo motivo che i valori di integrità, trasparenza, responsabilità e fedeltà sono alla base di tutto ciò che facciamo, compresi i nostri rapporti di lavoro. Per le persone che lavorano nel sito produttivo di Casalvieri, questo si traduce in un contratto a tempo pieno per tutti e in condizioni di lavoro eque e sicure.

3 GOOD HEALTH AND WELL-BEING

LA SICUREZZA PRIMA DI TUTTO

Quando scelgono Gemar, i nostri clienti possono essere certi che i nostri prodotti sono progettati in modo tale da rispettare i più alti standard di qualità e che sono prodotti in Italia con orgoglio e passione. Tutti i processi, dalla progettazione alla fabbricazione, vengono effettuati negli stabilimenti Gemar di Casalvieri in Italia, nel rispetto degli standard europei più severi in termini di **sicurezza dei giocattoli**. La qualità Gemar è riconosciuta in tutto il mondo, **certificata e testata** da enti internazionali accreditati, come TUV, SGS, Intertek, IISG-UL.

COMUNITÀ

L'effetto Gemar va ben oltre le mura del nostro stabilimento. Nelle piantagioni di gomma cerchiamo di aiutare le comunità a crescere dando sempre la priorità all'assunzione di personale locale. Qui in Italia, sponsorizziamo numerosi eventi culturali, sportivi e di intrattenimento.

MADE IN ITALY

Tutti i nostri prodotti sono realizzati interamente nei nostri stabilimenti qui sulle colline italiane, senza esternalizzare la produzione e senza produrre all'estero. Produrre noi stessi ogni singolo palloncino significa garantire ai nostri clienti l'alta qualità di tutti i nostri prodotti.

4 QUALITY EDUCATION

FORMAZIONE

Non solo sosteniamo finanziariamente le scuole locali e gli eventi, ma ci impegniamo in maniera concreta. I nostri esperti di palloncini offrono divertenti lezioni pratiche sia durante gli eventi sia online. Tramite il nostro esclusivo **programma Balloonista** condividiamo con le persone di tutto il mondo dei video tutorial per invitarle a creare e a scoprire la gioia e la passione per i palloncini.

ETICA

Siamo soci attivi di Assogiocattoli e di European Balloon & Party Council (EBPC), organizzazioni che si dedicano a migliorare gli standard di settore e promuovere le best practice e l'uso responsabile dei palloncini grazie a Party Safe. Gemar fa anche parte di SEDEX, un'organizzazione non profit che lavora per migliorare l'etica delle catene di fornitura globali, nonché degli enti di armonizzazione europei CEN-CENELEC e UNI. Nel 2023 Gemar ha collaborato con Treedom per contribuire a un cambiamento positivo dell'ambiente e della vita delle persone. Abbiamo piantato 200 alberi in 6 paesi in giro per il mondo, a beneficio non solo dell'ambiente, ma anche delle persone che vivono in quelle zone. Oggi sono solo delle piantine, ma domani i nostri alberi forniranno cibo, riparo e opportunità economiche, contribuendo al contempo ad eliminare l'ossido di carbonio dall'atmosfera.

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

TRADIZIONE E INNOVAZIONE

Guardiamo spesso indietro alle quattro generazioni di produttori di palloncini della nostra famiglia con una passione ed un orgoglio immutati, ma non siamo fermi al passato. Con una lunga tradizione di innovazione alle spalle, vogliamo aprire la strada verso il futuro in molti modi, sia su piccola che su grande scala. Il nostro team di Ricerca e Sviluppo promuove l'innovazione nel processo produttivo attraverso la digitalizzazione, la riduzione del consumo di energia e lo sviluppo tecnologico.

AZIONE GLOBALE (SDG 16 PACE, GIUSTIZIA E ISTITUZIONI SOLIDE)

Gemar è la prima azienda nel settore dei palloncini e degli articoli per feste ad adottare la rendicontazione di sostenibilità certificata secondo le linee guida della Global Reporting Initiative e dal 2019 partecipa all'iniziativa di responsabilità sociale d'impresa Global Compact delle Nazioni Unite.

GLORIA VETA - GENESIO ROCCA

MARÁ ROCCA

EMMA LIA ROCCA - ANGELO ROCCA

A PROUD HERITAGE

A story of Italian passion, pride and family.

🇬🇧 In 1888 a four - year - old named Angelo Rocca emigrated to France, with his family, to help his balloon artisan brother-in-law. The experience sparked a passion for balloons in the young boy, and it is still burning bright four generations later.

Angelo's rise was astounding, at the age of 15 he was managing a balloon workshop and at 18 he returned home and became founder of the first latex balloon manufacturing company in Italy, eventually expanding to sell handmade balloons around the world. While each balloon had to be carefully produced, growth was always limited. Until one of Angelo's sons, Genesio, transformed production when he bought the first automatic dipping line to manufacture latex balloons.

Sadly, Genesio Rocca passed away in a tragic car accident in 1977 but his oldest son, named Angelo after his Grandfather, took the reins of the company and in 1990 Angelo Rocca and his wife Emma Rocca officially founded GEMAR. Following 3 generations of balloon makers Genesio Rocca, Angelo's eldest son is continuing the family tradition alongside his wife Gloria Veta and sister Mara Rocca.

The combination of skills, expertise, heritage and technology that has been passed down through four generations has led Gemar to become a global leader in the industry and Europe's largest manufacturer of natural rubber latex balloons.

ORGOGLIOSI DELLA NOSTRA EREDITÀ

Una storia italiana di passione, orgoglio e valori familiari.

🇮🇹 Nel 1888 un bimbo di quattro anni di nome Angelo Rocca emigra con la sua famiglia in Francia per aiutare il cognato, un produttore artigianale di palloncini. Questa esperienza accende nel ragazzo la passione per i palloncini, una passione la cui fiamma continua a brillare quattro generazioni più tardi.

L'avventura professionale di Angelo è sorprendente: all'età di 15 anni gestisce un laboratorio di palloncini; a 18 anni torna in Italia e fonda la prima fabbrica di palloncini in lattice italiana, portando le vendite dei palloncini fatti a mano in tutto il mondo. La grande cura dedicata alla fabbricazione di ogni palloncino costituisce un fattore limitante per la crescita. Fino a quando Genesio, uno dei figli di Angelo, non trasforma la produzione, acquistando la prima linea automatica per la fabbricazione dei palloncini in lattice.

Purtroppo Genesio Rocca morì in un tragico incidente stradale nel 1977, ma il figlio maggiore, chiamato Angelo come il nonno, prese le redini dell'azienda e nel 1990 Angelo Rocca e sua moglie Emma Rocca fondarono ufficialmente GEMAR. Dopo tre generazioni di produttori di palloncini, Genesio Rocca, il figlio maggiore di Angelo, continua la tradizione di famiglia insieme alla moglie Gloria Veta e alla sorella Mara Rocca.

La combinazione di abilità tecnica, esperienza, patrimonio e tecnologia che ha attraversato quattro generazioni ha consentito a Gemar di diventare leader globale del settore e uno dei maggiori fabbricanti europei di palloncini in lattice di gomma naturale.

UNA HERENCIA QUE NOS ENORGULLECE

Una historia de pasión, orgullo y familia

🇪🇸 En 1888 un niño de cuatro años llamado Angelo Rocca emigró a Francia con su familia para ayudar a su cuñado, un exitoso artista de globos. Esta experiencia despertó en él una pasión por los globos que sigue viva aún hoy, cuatro generaciones más tarde.

El éxito de Angelo fue asombroso: a la edad de 15 años ya dirigía un taller de globos, y a los 18 regresó a Italia y fundó la primera fábrica de globos de látex, que con el tiempo fue difundiendo la venta de globos hechos a mano en todo el mundo. Mientras se fabricaba globo por globo con gran atención, el crecimiento permanecía limitado. Hasta que uno de los hijos de Angelo, Genesio, compró la primera línea de inmersión para fabricar globos de látex.

Tristemente, Genesio Rocca falleció en un trágico accidente de coche en 1977, pero su hijo mayor, llamado Angelo en honor a su abuelo, tomó las riendas de la empresa y en 1990 Angelo Rocca y su esposa Emma Rocca fundaron oficialmente GEMAR. Tras 3 generaciones de fabricantes de globos, Genesio Rocca, el hijo mayor de Angelo, continúa la tradición familiar junto a su esposa Gloria Veta y su hermana Mara Rocca.

La combinación entre habilidades, pericia, herencia y tecnología transmitida de generación en generación durante cuatro generaciones ha convertido a Gemar en líder europeo de la industria y en uno de los mayores fabricantes mundiales de globos de látex natural.

UN FIER HÉRITAGE

Une histoire à l'italienne, faite de passion, de fierté et de famille.

🇫🇷 En 1888, Angelo Rocca, alors âgé de quatre ans, arrive en France, avec sa famille, pour aider son beau-frère, un artisan qui travaille les ballons. Cette expérience a fait naître chez le jeune garçon une véritable passion. Cette passion brûle encore quatre générations plus tard.

Angelo a très vite progressé. A 15 ans, il dirigeait un atelier. A 18 ans, il est rentré en Italie et a fondé la première usine de fabrication de ballons en latex en Italie. Ses ballons ont ensuite été vendus partout dans le monde. Puisque chaque ballon doit être fabriqué avec soin, le développement a toujours été limité. Jusqu'à ce qu'un fils d'Angelo, Genesio, transforme la production en achetant la première ligne de trempage automatisée pour la production de ballons en latex.

Malheureusement, Genesio Rocca est décédé dans un tragique accident de voiture en 1977, mais son fils aîné, prénommé Angelo en l'honneur de son grand-père, a repris les rênes de l'entreprise et, en 1990, Angelo Rocca et sa femme Emma Rocca ont officiellement fondé GEMAR. Après trois générations de fabricants de ballons, Genesio Rocca, le fils aîné d'Angelo, poursuit la tradition familiale aux côtés de sa femme Gloria Veta et de sa sœur Mara Rocca.

L'association des compétences, de l'expertise, de l'héritage et de la technologie transmis de génération en génération a fait de Gemar un leader mondial du secteur et l'un des plus grands producteurs au monde de ballons en latex naturel.

GEMAR USA

Gemar USA was formerly Funny Balloons, a company founded in 2015 by Piero Bove, his wife Maria, and parents Claudio and Pia. The Rocca and Bove families have a lot in common - Piero's grandparents were born in a town near the Gemar factory in Italy, and the two families share a long history in the balloon industry. In 2015, the family moved to the USA to found Funny Balloons, the first representative of Gemar Balloons in the USA.

STRONGER TOGETHER

The two families have brought their extensive experience and passion for balloons together to found Gemar USA INC, with the mission to distribute Gemar balloons across the Americas.

As CEO of Gemar USA Inc, Piero is committed to expanding the business and working with the balloon community to keep improving the industry. He's looking forward to helping Gemar's 51 distributors spread the joy and happiness of balloons across the Americas!

GET IN TOUCH WITH US

Ordering your Gemar products couldn't be easier – just contact our sales team. At Gemar USA we have a team of people with extensive experience in the balloon business committed to serving our customers, current and future Gemar Stars* throughout the US.

GEMAR USA

Gemar USA era antes Funny Balloons, una empresa fundada en 2015 por Piero Bove, su esposa Maria y sus padres Claudio y Pia. Las familias Rocca y Bove tienen mucho en común: los abuelos de Piero nacieron en un pueblo cercano a la fábrica de Gemar en Italia, y las dos familias comparten una larga historia en la industria de los globos. En 2015, la familia se mudó a Estados Unidos para fundar Funny Balloons, el primer representante de Gemar Balloons en Estados Unidos.

JUNTOS MÁS FUERTES

Las dos familias han unido su amplia experiencia y pasión por los globos para fundar Gemar USA INC, con la misión de distribuir globos Gemar en todo el continente americano.

Como CEO de Gemar USA Inc, Piero se compromete a expandir el negocio y a trabajar con la comunidad de globeros para seguir mejorando la industria. Está deseando ayudar a los 51 distribuidores de Gemar a difundir la alegría y la felicidad de los globos por todo el continente americano.

 Vous voulez faire partie de la communauté des sculpteurs de ballons, vous amuser et marquer le moment en réalisant de splendides sculptures ? Vous pouvez devenir un Balloonista et apprendre auprès des meilleurs.

TOUT LE MONDE PEUT DEVENIR BALLOONISTA

Vous devez juste vous passionner pour le partage et la magie du ballon. Si un sourire d'enfant vous met en joie et si vous voulez exploiter votre créativité pour transmettre cette joie aux autres, soyez le/la bienvenu/e ! La communauté Balloonista est une famille qui ne cesse de grandir aux quatre coins du monde. De plus en plus de gens se joignent à nous pour créer quelque chose de véritablement spectaculaire.

APPRENEZ AUPRÈS DES MEILLEURS

De Léonard de Vinci à Jackson Pollock, les artistes ont toujours appris auprès des maîtres. Les sculpteurs de ballons n'échappent pas à la règle. Nos maîtres-sculpteurs inspirent les nouveaux venus et aiment à leur transmettre leurs connaissances et leurs compétences. Nos tutoriels présentent des sculptures complexes et les expliquent de manière simple, grâce à des conseils détaillés qui vous permettront de créer vos propres œuvres et à marquer le moment.

The plastic free alternative to balloon sticks

Many of our existing clients have already pledged to reduce their use of single plastics. With BalloonGrip™, we can offer you an affordable, recyclable, eco-friendly alternative to plastic balloon sticks that allows you to continue planning popular branded marketing activities for your customers.

L'alternativa senza plastica alle asticelle per palloncini

Molti dei nostri clienti hanno già preso la decisione di ridurre l'uso della plastica monouso. Con BalloonGrip™, vi offriamo un'alternativa ecologica, biodegradabile e conveniente alle asticelle per palloncini per aiutarvi ad organizzare attività di marketing per i clienti con il vostro marchio.

HI-SHINE

- Balloons treated with HI-SHINE look brighter and shinier than when they were first inflated!
- Restore the shine to latex balloons that have become dull or cloudy.
- Use with air-filled and helium-filled balloons.
- Safe and non-toxic.
- Combine HI-FLOAT and HI-SHINE for balloons that defy gravity - and time - for longer than ever.

Gemar® balloons are made of biodegradable natural rubber latex.

***Average flying time for helium filled latex balloons.**

Environmental conditions, helium quality, filling and use of the products may vary beyond our control. Therefore these specifications are to be considered as a guideline and no performance guarantee can be made. Metallic balloons are slightly smaller due to their latex composition and average flying time is reduced in proportion to the actual size. We recommend to pre-stretch the balloons before inflating with gas. Inflate the balloon with air 2 times before inflating with helium or balloon gas.

Tips

While using a helium tank and the content of helium decreases, the filling pressure will also go down to a certain extent that the balloons cannot be filled properly. In this case we recommend to pre-stretch the balloons by inflating at first with air and then to proceed to inflate with helium so the balloon is less resistant and less pressure is required to fill the balloon properly. We recommend the use of ULTRA HIFLOAT for helium filled balloons. ULTRA HIFLOAT balloon flight extender can increase the flying times of latex balloons up to 25 times longer than untreated balloons.

I palloncini Gemar® sono fabbricati con lattice naturale biodegradabile. *Tempo di volo medio per palloncini in lattice gonfiati con elio.

Le condizioni ambientali, la qualità dell'elio, il riempimento e l'uso dei prodotti possono variare al di là del nostro controllo. Pertanto queste specifiche devono essere considerate come linee guida e non è possibile rilasciare alcuna garanzia sulle prestazioni. I palloncini metallizzati sono leggermente più piccoli a causa della composizione del lattice e il tempo di volo medio è ridotto in proporzione alle dimensioni effettive. Si raccomanda di predilatare i palloncini prima di gonfiarli con il gas. Gonfiare il palloncino con aria 2 volte prima di gonfiarlo con elio o gas per palloncini.

Suggerimenti

In caso di uso di un serbatoio per l'elio, se il contenuto di elio diminuisce, anche la pressione di riempimento scenderà, impedendo il corretto riempimento dei palloncini. In questo caso si raccomanda di predilatare i palloncini gonfiandoli prima con l'aria e successivamente con l'elio in modo tale che il palloncino sia meno resistente e sia necessaria una pressione inferiore per gonfiare correttamente il palloncino. Si raccomanda l'uso di ULTRA HIFLOAT per i palloncini gonfiati con l'elio. Il trattamento con ULTRA HIFLOAT può aumentare il tempo di volo dei palloncini in lattice fino a 25 volte rispetto ai palloncini non trattati.

Les ballons Gemar® sont fabriqués à partir de caoutchouc naturel bio. *Durée de flottaison moyenne pour les ballons en latex gonflés à l'hélium.

Nous ne pouvons prendre en compte toutes les conditions environnementales, la qualité de l'hélium, le gonflage et l'utilisation des produits. Ces données doivent donc être considérées comme des lignes directrices fournies sans garantie et à titre d'information uniquement. Les ballons métallisés sont légèrement plus petits en raison de leur composition en latex. Leur temps de flottaison moyen est limité par rapport à la taille réelle. Il est conseillé d'étirer les ballons avant de les gonfler avec du gaz. Gonflez le ballon à l'air deux fois avant de le gonfler à l'hélium ou avec un gaz spécial.

Astuces

Si vous utilisez une bouteille d'hélium et que le volume diminue, la pression de gonflage sera elle aussi réduite. Il est possible qu'à un certain point, les ballons ne soient pas complètement gonflés. Le cas échéant, nous vous conseillons d'étirer les ballons en les gonflant à l'air avant de les gonfler à l'hélium. Le ballon sera ainsi détendu et une moindre pression sera nécessaire pour gonfler le ballon correctement. Nous conseillons l'utilisation de l'ULTRA HIFLOAT pour les ballons gonflés à l'hélium. Le produit ULTRA HIFLOAT prolonge le temps de flottaison des ballons en latex jusqu'à 25 fois par rapport aux ballons non traités.

Los globos Gemar® se fabrican con látex de caucho natural biológico. *Tiempo de vuelo promedio para globos de látex inflados con helio.

Las condiciones ambientales, la calidad del helio, el inflado y el uso de los productos son aspectos variables que están fuera de nuestro control. En consecuencia, estas especificaciones deben considerarse aproximativas, y no se ofrece ninguna garantía sobre las prestaciones. Los globos metálicos son un poco más pequeños, debido a la composición del látex; el tiempo de vuelo promedio se reduce en proporción al tamaño. Recomendamos estirar los globos antes de inflarlos con gas. Inflar el globo con aire 2 veces antes de inflarlo con helio o con gas para globos.

Consejos

Cuando se utiliza un tanque de helio, a medida que el contenido de helio del tanque disminuye, la presión de inflado también se va reduciendo, hasta el punto en que el globo no se infla correctamente. En este caso, recomendamos estirar los globos e inflarlos primero con aire, y luego con helio, para que resulten menos resistentes y requieran menos presión de inflado para inflarse correctamente. Recomendamos utilizar ULTRA HIFLOAT para los globos de helio. ULTRA HIFLOAT multiplica hasta por 25 el tiempo de vuelo de los globos de látex.
